Action Items:

- **Consideration to Reinstate the Postponed Tire Disposal Rate of $250/ton In District and $280/ton Out of District and $125/ton for Shredded Tires**

    - **Suggested Motion** – I move to reinstate the postponed tire rate of $250/ton In District and $280/ton Out of District and $125/ton for Shredded Tires

- **Consideration to Award the Metal Salvaging Bid to the Contractor of the Boards Choosing.**

    - **Suggested Motion** - I move to award the metal salvaging bid to (chosen contractor)

Non-Action Items:

- **None This Meeting**

Updates:

- Public Purchase for Bid Collection
- Montana DEQ Solid Waste Conference
- Youth Home Partnership
- Recycling Committee
- Covered Load Fee Advertised
- Public Purchase added to Website
- Site Clean Up Continues with Summer Help
- Digital Ticket Kickoff on October 1st
- Branch Chipping RFP Sent Out for Hard Bid
- Site Capacity Audit Update
- Drywall Recycling
- Usage Reports

September 14, 2026, Board Meeting Minutes

The Chairwoman called the meeting to order at 5:30 PM on September 14, 2026, in the 2nd floor conference room of the Sweetwater Co. Health and Human Services Building, 333 Broadway St, Rock Springs, Wyoming.

In Attendance:	Absent:
Ms. Celeste Black	Ms. Larissa Apel
Mr. Devon Brubaker	
Mr. Colby Moss	
Mr. Gene Legerski	

Others Present:	
Mr. Dan Chetterbock	General Manager, Rock Springs Landfill
Mr. Andrew ("Drew") Varley	Summit Accounting Services, P.C.
Mr. Wendell Minkler	Member of the Public

Additions or changes to the Agenda: None.

Agenda: Mr. Brubaker moved to approve the agenda; Mr. Moss seconded. Motion carried.

Additions or changes to the Minutes: None.

Minutes: Mr. Legerski moved to approve the minutes as printed; Mr. Moss seconded. Motion carried.

Formal and/or Informal Petitions from the Floor: Mr. Wendell Minkler inquired why the Recycle Center no longer accepts plastic grocery bags. Mr. Brubaker explained that the Recycle Center has never officially accepted plastic bags; bags received were sent to waste-to-energy at a cost exceeding $100 per ton because no viable end market exists at the community's volume. He noted that the Recycle Center has since reorganized its operations, added signage, and stationed staff outside during operating hours to educate the public, and that certain retailers accept plastic bags for return. He also asked whether the Recycle Center would be relocated to the landfill. Mr. Chetterbock stated that relocation is under consideration; the waste diversion study indicated approximately 16 to 18 percent of material entering the landfill could be recycled. A Recycle Center Evaluation Committee has been formed. Mr. Brubaker added that the committee will also evaluate curbside recycling and community drop-off sites, and that relocation would not proceed without one or both of those options.

Manager's Report:

- **Action Items:** 1) Mr. Chetterbock requested approval to auction the used 2012 Chevrolet Silverado pit inspector truck. Mr. Legerski noted the vehicle should be sold before it incurs further cost. Mr. Brubaker moved to place the 2012 Chevrolet Silverado pit inspector truck up for auction on October 1, 2026, at

noon; Mr. Moss seconded. Motion carried. 2) Mr. Chetterbock presented the branch chipping RFP proposals. Of eight companies solicited, three submitted proposals: Big Sky Limited ($78,500.00), Arbor Works Organic ($144,291.81), and Longhorn Construction ($59,750.00). Mr. Chetterbock recommended Big Sky Limited based on its ability to process larger stumps and logs and its all-inclusive pricing. Longhorn Construction's proposal included only one set of grinder teeth; replacements would be billed to the District. Mr. Legerski noted that Longhorn Construction is a local company and asked about the cost of replacement teeth. Mr. Brubaker noted that the RFP listed evaluation criteria (cost, experience, equipment capability, schedule, and references) and recommended scoring all proposals against those criteria before any award. No action was taken; Mr. Chetterbock will score the proposals and distribute the results to the Board, with any award to be ratified at the October meeting. Mr. Legerski recommended that similar defined-scope work be procured through a formal bid in the future, and Mr. Brubaker suggested the District consider QuestCDN for electronic bidding. 3) Mr. Chetterbock requested acceptance of the new insurance rates from Sweetwater County. The 5% annual increase was included in the approved budget. Mr. Legerski moved to accept the new insurance rates as provided by Sweetwater County; Mr. Moss seconded. Motion carried. 4) Mr. Chetterbock requested approval of the quote from Kenco for the purchase of a KL9000 barrier lift. Mr. Brubaker moved to approve the quote from Kenco for the purchase of a KL9000 barrier lift; Mr. Moss seconded. Motion carried. 5) Mr. Chetterbock requested approval of the Trihydro proposal for Title V routine reporting and the five-year Tier 2 investigation required under DEQ regulations. The proposal, approximately $59,000, came in over the $56,500 budget estimate. Mr. Legerski moved to approve the Trihydro proposal for Title V routine reporting and Tier 2 investigation; Mr. Moss seconded. Mr. Brubaker recommended that the approval be treated as not to exceed the proposed amount and that Mr. Chetterbock seek a reduction to the original estimate, and Mr. Legerski requested an explanation for the increase. Motion carried.

- **Non-Action Items:** 1) Mr. Chetterbock invited Board input for the first meeting of the Recycle Center Evaluation Committee, to be held Thursday, September 17, 2026, at 6:00 PM. Jeannie Demas (Rock Springs City Council) and Jessica Maser (Green River City Council) will serve on the committee. He also reported that Peak Disposal and Wyoming Waste are willing to handle carts and discuss rates should the District pursue curbside recycling. 2) Mr. Chetterbock reviewed the draft HDR Master Plan, including the proposed expansion, a design change to 12-inch collection pipe in Cell 5, relocation of the compost area, an additional leachate pond, and a proposed public entrance redesign with a relocated scale, reuse shed, construction and demolition reuse pilot area, and proposed recycling facility. Mr. Legerski noted concerns with draft wording that presumes the Recycle Center relocation will occur and asked about widening the county road; Mr. Chetterbock stated he did not believe widening would be necessary. 3) Mr. Chetterbock reported on a biochar unit from EcoServe priced at approximately $617,000. Biochar could eventually be used for alternative cover, soil amendment, and carbon credits, subject to DEQ approval of trial runs. 4) Mr. Chetterbock requested Board input on the proposed shredded tire rate and reviewed potential revenue lost under the current rate. He reported that all tire haulers were invited to comment and only Tire Den responded, indicating it may pursue other disposal options. Following discussion, the Board consensus was to proceed with the previously approved higher tire rate. Mr. Chetterbock will bring the tabled motion back at the October meeting, following the 90-day period, with a proposed effective date of November 1, 2026.

- **Updates:** 1) The District received the DEQ "Oscar" award at the WSWRA Conference, its first such award; a press release is forthcoming. 2) Mr. Chetterbock presented on digital landfill technology with Stellar at the WSWRA Conference and has been invited to speak at Montana's inaugural solid waste conference in Bozeman on October 4–5, 2026. 3) Mr. Chetterbock toured the Xscindo e-waste pyrolysis facility. The District's data is being used in Xscindo's presentation for a planned facility in the United Kingdom. 4) DEQ selected the District for a pilot program for monthly annual-report submissions, expected to begin in early 2027. 5) Mr. Chetterbock was nominated as chair on the WSWRA Board, which is forming a committee to seek legislative funding for recycling infrastructure in smaller counties. Mr. Brubaker suggested the committee consider extended producer responsibility (EPR) as a funding source. 6) Mr. Chetterbock reported on an interview regarding the District's key performance indicator data, and that the District will implement two-foot lifts on a trial basis, which have yielded approximately 1,789 pounds per cubic yard. Mr. Brubaker and Mr. Legerski encouraged letting the public know how these improvements extend landfill life and save taxpayer money. 7) Mr. Chetterbock reported on the waste handler meeting. 8) Mr. Chetterbock met with mayoral candidate Phil Stanton regarding district expansion and will meet with Stan Blake. 9) The DEQ statewide tire rate report shows the District's proposed tire rate is in line with other facilities in the state. 10) The District will participate in trunk-or-treat events in Green River and Rock Springs to promote battery recycling and district expansion.

New Business: None.

Old Business: None.

Financial Statement/Payment of Vouchers: Mr. Varley reviewed the financial report. The District held just under $12 million at the end of August, county tax revenue is slightly below budget, which is typical for this time of year, and year-to-date operating income is approximately $28,000 ahead of the prior year. Mr. Brubaker moved to accept the financials as presented by Summit Accounting Services, P.C., and approve payment of vouchers; Mr. Moss seconded. Motion carried.

Executive Session: None.

Adjournment: Mr. Moss moved to adjourn; Mr. Legerski seconded. Motion carried. The meeting adjourned at 6:26 PM.

Vice Chairman

Secretary/Treasurer

REQUEST FOR PROPOSALS (RFP)

Grinding and Chipping of Woody Debris

Sweetwater County Solid Waste Disposal District #1

Rock Springs Landfill

Rock Springs, Wyoming

1. Introduction

The Sweetwater County Solid Waste Disposal District #1 ("District") is soliciting proposals from qualified contractors to furnish all labor, equipment, fuel, supervision, transportation, maintenance, and incidentals necessary to grind and chip approximately 12,500 cubic yards of stockpiled tree branches, brush, and woody debris located at the Rock Springs Landfill.

The District intends to award the contract to the responsible proposer whose proposal is determined to be in the best interest of the District.

2. Scope of Work

The Contractor shall:

- Mobilize all necessary equipment, personnel, and support equipment.
- Grind and/or chip approximately 12,500 cubic yards of woody debris.
- Produce a uniform finished product with a maximum particle size of four (4) inches minus. Any oversized material shall be reprocessed at no additional cost to the District.
- Maintain a minimum production rate of 750 cubic yards per working day unless otherwise approved in writing by the District due to weather, equipment failure beyond the Contractor's control, or other unforeseen conditions.
- Maintain a safe work area at all times.
- Coordinate operations with District staff.
- Perform daily cleanup of the work area.
- Conduct a fire watch at the completion of each day's grinding operations in accordance with Section 7, Safety Requirements.

The Contractor shall provide all:

- Horizontal grinder or industrial wood chipper
- Excavator or loader for feeding material
- Support equipment
- Fuel
- Repairs and maintenance
- Operators
- Labor

3. Material Description

Material consists primarily of:

- Tree branches
- Limbs
- Brush
- Small tree trunks

Material may contain limited amounts of:

- Leaves
- Pine needles
- Dirt
- Rocks
- Minor contamination normally associated with green waste

It is recommended that the Contractor inspect the site prior to submitting a proposal.

Pictures and other information can be provided upon request.

4. Estimated Quantity

Estimated quantity: 12,500 cubic yards

This quantity is an estimate only and is not guaranteed. The District reserves the right to increase or decrease the quantity based on operational needs. Payment shall be based upon the Contractor's accepted bid.

5. Performance Requirements

The Contractor shall:

- Complete all work within 25 calendar days after Notice to Proceed.
- Operate during District-approved hours.
- Maintain a minimum production rate of 750 cubic yards per working day, unless otherwise approved by the District.
- Produce a finished chip meeting the specification of four (4) inches minus.
- Minimize dust and noise where practical.
- Prevent damage to District property.
- Immediately report equipment leaks or spills.
- Follow all OSHA, EPA, Wyoming DEQ, and applicable federal, state, and local regulations.
- All grinding equipment shall possess all required Title V air quality permits and any other permits required by applicable regulatory agencies.

6. Insurance Requirements

Before beginning work, the Contractor shall provide certificates of insurance including:

- Commercial General Liability: $1,000,000 per occurrence and $2,000,000 aggregate
- Automobile Liability
- Any additional insurance required by Wyoming law

The District shall be named as an Additional Insured where applicable.

7. Safety Requirements

The Contractor shall:

- Provide a site-specific safety plan before beginning work.
- Maintain fully charged fire extinguishers on all equipment.
- Have spill containment materials readily available.
- Immediately report all accidents, fires, equipment failures, and spills to the District.
- Follow all District safety policies and procedures.
- Conduct a fire watch at the conclusion of each day's grinding operations. The Contractor shall inspect the work area, processed material, grinder, and surrounding area for signs of heat, smoke, or fire. Any hot spots or smoldering material shall be extinguished before personnel leave the site. The Contractor shall remain responsible for any fire resulting from its operations until released by the District.

8. Proposal Submission

Each proposal shall include:

1. Company information
2. Years of experience
3. Description of similar projects
4. Minimum of three references
5. Equipment list
6. Estimated schedule
7. Price proposal
8. Proof of insurance
9. Completed W-9

9. Price Proposal

Lump Sum Price

Grinding and chipping approximately 12,500 cubic yards

Lump Sum: $_____

Additional Unit Price

Additional material beyond 12,500 cubic yards

Price per cubic yard: $_____

Price per hour, if applicable: $_____

10. Evaluation Criteria

Proposals may be evaluated using the following criteria:

Criteria	Weight
Cost	40%
Experience	20%
Equipment Capability	20%
Schedule	10%
References	10%

The District reserves the right to reject any or all proposals.

11. Contract Award

The District reserves the right to:

- Reject any proposal
- Waive informalities
- Negotiate with proposers
- Award in the best interest of the District
- Cancel the solicitation

12. Site Visit

A voluntary site visit may be scheduled, as stated in the final solicitation notice.

Location: Rock Springs Landfill, 50 County Road 64, Rock Springs, Wyoming 82901

Date and Time: Monday through Friday from 8am – 5pm August 3rd through 14th and 24th through 31st.

Contact: Dan Chetterbock, 307-352-6869, dan.rslandfill@gmail.com

13. Questions

Questions regarding this RFP shall be directed to:

Dan Chetterbock

Rock Springs Landfill General Manager

Phone: 307-352-6869

Email: dan.rslandfill@gmail.com

No verbal interpretations shall be binding.

14. Proposal Due Date

Proposals must be received no later than:

Date: August 31st

Time: 2pm

Late proposals will not be accepted.

Please email all proposals to: dan.rslandfill@gmail.com

Proposal for Grinding and Chipping of Woody Debris

Submitted To

Sweetwater County Solid Waste Disposal District #1
Rock Springs Landfill
Rock Springs, Wyoming

Submitted By

Arbor Works Organics
5400 S. US Highway 89
Jackson, Wyoming 83001
Phone: (307) 413-8829

Introduction

Arbor Works Organics is pleased to submit this proposal to the Sweetwater County Solid Waste Disposal District #1 and the Rock Springs Landfill for the grinding and chipping of woody debris.

Arbor Works Tree Service was established in 2012. In November 2024, Arbor Works Tree Service purchased the assets and contracts of Terra Firma Organics, which was subsequently renamed **Arbor Works Organics**. This acquisition expanded our capabilities and experience in large-scale organics processing, grinding, hauling, and beneficial reuse of woody materials.

Arbor Works Organics has extensive experience managing and processing large volumes of organic and woody debris for public agencies, municipalities, and solid waste facilities throughout the region.

Relevant Experience

Teton County Transfer Station

Location:
5400 S. US Highway 89
Jackson, Wyoming 83001

Arbor Works Organics contractually manages, processes, trucks, and sells approximately **16,000 tons of organic materials annually**, including:

- Clean construction wood

- Woody brush
- Stumps
- Grass
- Manure
- Biosolids
- Food waste
- Sod

The contract was transferred from Terra Firma Organics to Arbor Works Organics on **October 1, 2024**, and is valid through **July 2029**.

Email: rkiefer@tetoncountywy.gov

City of Missoula – FEMA Contract

Garden City Compost Facility
435 Ryman Street
Missoula, Montana 59802

Arbor Works Organics was contracted through FEMA for the City of Missoula to grind and haul more than **93,000 cubic yards of woody material and stumps.**

Project Period:
November 12, 2024 – February 19, 2025

Reference:
Jason Duffin
Phone: (406) 207-5964
Email: duffinj@ci.missoula.mt.us

Teton County Solid Waste and Recycling

Location:
1088 Cemetery Road
Driggs, Idaho 83422

Arbor Works Organics was contracted to process approximately:

- **3,000 tons of construction wood**

- **1,000 tons of woody brush**

Project Period:
December 2, 2025 – December 30, 2025

Reference:
Dan O'Donnell
Phone: (208) 534-8710
Email: dodonnell@tetoncountyidaho.gov

Madison County Solid Waste

Location:
718 E. Butte Road
Rexburg, Idaho 83440

Arbor Works Organics was contracted to process approximately **8,311.5 cubic yards of woody brush** and remove all resulting mulch from the site.

Project Period:
January 26, 2026 – February 27, 2026

Reference:
Sunny Haws
Phone: (208) 351-6648

Equipment

Arbor Works Organics will utilize professional, heavy-duty equipment suitable for large-scale woody debris processing, including:

- **2018 Rotochopper B66** — 1,050 HP tracked grinder
- **2018 Caterpillar MH3024 Material Handler**

This equipment combination provides the power and efficiency necessary to safely process substantial volumes of woody debris and efficiently manage material handling operations.

Project Schedule

Arbor Works Organics intends to complete the project **no later than 25 calendar days after the Notice to Proceed**.

We are prepared to coordinate with Sweetwater County Solid Waste Disposal District #1 and Rock Springs Landfill personnel to establish a project schedule that supports landfill operations and meets the District's project requirements.

Pricing

Arbor Works Organics' pricing is based on actual grinding time.

Grinding and Processing

$1,000 per hour

144.29 projected hours to grind approximately 12,500 cubic yards of woody material

$144,291.81

This rate includes:

- Equipment operator
- Material handler
- Grinder

Mobilization

The mobilization fee for the project is:

$7,120

This amount is based on **$5.00 per mile** for transportation of two pieces of equipment to and from the Rock Springs Landfill.

Optional Air Burner Demonstration and Purchase Opportunity

Our **Air Burner S223** is available for a **complimentary demonstration** for the Sweetwater County Solid Waste Disposal District #1 and the Rock Springs Landfill.

The Air Burner S223 is also available for purchase for:

$129,000

If Sweetwater County Solid Waste Disposal District #1 and the Rock Springs Landfill purchase the Air Burner, **no mobilization fee will be applied for transporting this unit to the project site.**

If mobilization of the Air Burner back to the Teton County Transfer Station is required, an additional:

$1,780 mobilization fee

will be applied to the bid.

Commitment to the Project

Arbor Works Organics is committed to providing safe, efficient, and professional woody debris processing services. Our experience managing large-scale organics operations, combined with our specialized equipment and experienced personnel, enables us to successfully complete demanding grinding and chipping projects for municipalities and solid waste facilities.

We appreciate the opportunity to submit this proposal to the Sweetwater County Solid Waste Disposal District #1 and the Rock Springs Landfill. We look forward to the opportunity to work with the District and provide reliable, efficient processing of woody debris.

Respectfully Submitted,

Arbor Works Organics
5400 S. US Highway 89
Jackson, Wyoming 83001
(307) 413-8829

Wood Chipping Quotation

Project: **Sweetwater County Solid Waste Disposal District #1**
To: Dan Chetterbock, Rock Springs Landfill General Manager
Payment Terms: Net 30

Description	Qty:	Unit	$/Unit	Total
Grinding & Chipping Approximately Initial Quantity	12,500	Cubic Yard	$ 6.28	$ 78,500.00
			Total	$ 78,500.00
Additional Unit Price Beyond 12,500 Cubic Yards	1	Cubic Yard	$ 6.28	
Price per hour, if applicable:	1	Hour	$ 986.00	

1) Big Sky Limited of Wyoming — P.O. Box 1671, Coeur d'Alene, ID 83816
1302 N. 14th Ave, Coeur d'Alene, ID 83814

2) Big Sky Limited of Wyoming has over 6 years experience in woodchipping, clearing & grubbing
3) Experience includes clearing and woodchipping of forested areas, large timber, and large stumps.
4) References:

5) Equipment list :
John Deere 245 Zero Swing Excavtor w/6'rake and thumb
4' Ripper to split stumps if needed

6) Estimated schedule — 750 cubic yards / day
Work 5 days/week

7) Price Proposal - See quotation above and terms listed below
8) Proof of Insurance - Attached to this proposal
9) W-9 Attached to this proposal

Big Sky Limited shall:
• Mobilize all necessary equipment, personnel, and support equipment.
• Grind and/or chip approximately 12,500 cubic yards of woody debris.
• Produce a uniform finished product with a maximum particle size of four (4) inches minus. Any oversized material shall be reprocessed at no additional cost to the District.
• Maintain a minimum production rate of 750 cubic yards per working day unless otherwise approved in writing by the District due to weather, equipment failure beyond the Contractor's control, or other unforeseen conditions.
• Maintain a safe work area at all times.
• Coordinate operations with District staff.
• Perform daily cleanup of the work area.
• Conduct a fire watch at the completion of each day's grinding operations in accordance with Section 7.

Big Sky Limited shall provide all:

- Equipment as listed above
- Support equipment as needed
- Fuel
- Repairs and maintenance of Big Sky Limited Equipment
- Operators
- Labor

Big Sky Limited shall:

- Complete all work within 25 calendar days after Notice to Proceed, issued based upon a mutually agreed upon start date.
- Operate during District-approved hours.
- Maintain a minimum production rate of 750 cubic yards per working day, unless otherwise approved by the District.
- Produce a finished chip meeting the specification of four (4) inches minus.
- Prevent damage to District property.
- Immediately report equipment leaks or spills.
- Comply with Safety Requirements as outlined in the RFP.
- Follow all OSHA, EPA, Wyoming DEQ, and applicable federal, state, and local regulations.

Contingencies/Terms and conditions:

1) All work to be performed in a workmanlike manner according to standard practices, any alterations or deviations from above specifications will only be executed with written agreement and may become a charge above and beyond price structure of original bid.

2) Mobilization includes initial in and final out, any additional mobilization due to circumstances beyond our control will be billed out at mobilation rate.

3) Big Sky Limited will maintain insurance of $1,000,000/$2,000,000 with your company as Certificate holder. Any increased insurance requirements will be charged out at cost and will need to be paid on demand by the insurance company.

4) This is a no bond bid A 4.0% increase will be added to bid price total if a bond is required or added to the contract.

5) This bid does not include tax

6) Sweetwater County Solid Waste Disposal District #1, will allow this proposal to be signed as a work order and allow this Work Order to supersede any conflict,

7) Downtime caused due to Sweetwater County Solid Waste Disposal District #1, will be charged based on agreed upon hourly rate.

8) Invoice to be submitted every two week and due net 30 days

9) If a second mobilization is required, there will a to be determined additional charge.
